Hello again Jen, Oops, I take that back; looks like I need to stay in town that week (b) (6)
(b) (6) . So Tuesday 2/27 in Seattle works best for me if possible. Thank you. S

Thanks very much Jen. I'll be on leave the entire week of 2/19, so looking at the following week --the day is pretty packed on 2/28 when I'll be in portland, but how about the afternoon of Tuesday 2/27 where I can be in Portland? I'll reach out to see if our Portland office or building conference room are available.

S

Subject: Gasco Sediments: Scheduling February Presentation to TCT

Hi Sean,

I talked to Bob and Ryan and they are available to present the post-dredge and post-cover verification approach to the TCT during the following dates: Wednesday, February 21 – Friday, February 23 and Monday, February 26 – Wednesday, February 28. They recommend reserving a two-hour time slot for the presentation. Bob and Ryan can attend a meeting in Seattle or Portland.

They propose holding this meeting later in February to provide sufficient time for NW Natural and EPA to finalize the approach based on the discussions during the January 10 meeting. Our team is currently revising the PowerPoint presentation based on the discussions during the January 10 meeting to propose a post-cover sampling approach that includes the residual layer and data uses. NW Natural will submit the revised presentation to the EPA team next week for your review and comment.
